

As a Precinct Committee Person elected for the Republican Party I oppose same day registration because I believe it undermines the ability to verify that the registrant is of age, is a legal resident, and has resided for the legal amount at the address for which they are voting.

I also object because they have inadequate notice or access to the voter's pamphlet so cannot be adequately informed of candidates or issues.

And the open door for voter fraud is because there's no way to verify any of the information given by them before they vote.
