

The only person, or people, you are regulating with the passage of this proposed bill is the law-abiding citizen.  
Criminals won't follow your law.  
Criminals are still going to carry guns into these locations and do harm to people.

Maybe we should just put, and Keep, criminals who use weapons to commit crimes in Jail.  
Then we may all feel safer.

Concealed carriers are not committing murders, armed robberies, or brandishing their guns because their McDonalds order isn't done in 45 seconds after it is ordered.  
But you all know that as I'm sure you see the statistics.

This is just one more law to regulate a section of the population that isn't committing crime.
