

As a real estate professional I often have to inspect vacant homes which attract drug users and thieves. Because of this I have my Oregon CHL. The bill as written is unclear and confusing. Many good people will become "accidental felons" by leaving their car in the wrong parking lot with a firearm securely locked inside or by walking through an unmarked outdoor public space while concealed carrying. The question must be asked, are people with an Oregon CHL who concealed carry responsible for crime? This bill will do nothing to dissuade the gang members of Portland who are responsible for nearly all shootings in 2020 from carrying handguns. Vote NO. Don't turn good people into "accidental felons" with this poorly written bill.
