

Hello my name is Savely Kalugin.

I'm a Russian Old Believer who had grandparents have first-hand experience of a totalitarian government that dis-armed the population, outlawed religion, put citizens and political opponents in jails or labor camps. I oppose this bill and I urge you to VOTE NO on this bill that will further restrict our second amendment rights to possess and carry firearms. With the passage of this bill it will make a lot more private citizens felons without even knowing it.
