

I am a native son of Oregon for 78 years. I was raised with firearms. My father wore one to work everyday on the Oregon State Police. I am a patriot, a veteran, a law abiding citizen. I know what is going on here, I'm not blind. There is no common sense anymore. The politicians want complete submission in the form of gun control, of every kind imaginable. I will not give up my 2nd amendment right, ever! That right is for my protection from tyranny from my own government. My father taught me two things about guns, you never pull one out unless you intend to use it, it's a tool. Also, you never give up your weapon, never, to the point of death. Once you give up your weapon, you're out of cards! You have no choices left.

I am adamantly opposed to this stupid proposal SB554. You congress people need to find something more constructive to do with your time. You politicos keep fooling around with this insanity and you, yourselves, will become the victims of the foolishness you are trying to pass off on us, the citizenry.
