

I am opposed to this overreaching bill. This bill will only harm the legal law bidding citizens. Those criminal elements in our society will simply ignore these terrible laws if implemented.

I am a law bidding citizen with a concealed carry license that I obtained after attending a concealed carry handgun class. I went through the county sheriffs background check and was approved for my license. You can bet criminals will not bother going through the same process, but they will continue to carry and use their weapons.

I ask that you don't put me into a situation where I could be breaking a law that makes no sense. Please kill this SB 554 bill.

Thank you.
Jim Foster
