

No on 554.

You idiot leftists shut down the economy for almost a year (for a flu that isn't dangerous) and now you want to eliminate lawful carry and self defense? At the same time you allow the lawlessness and violent rioting for almost a year? Concealed weapons licensees are the most straight laced law abiding citizens in the population, why are you targeting us?

You force businesses to shut down, force us to put non effective muzzles on our faces, now you are after the 2nd amendment?

Dont do it or you will be required to get a real job next election.
