

I come before you in opposition to Senate Bill 554, the way I understand it this bill would like biased liberal leaning areas of the state the ability to further restrict my God-given right to self defense. I already passed a background check to buy my gun, I passed another to get my concealed handgun license, why am I being punished or restricted where I can carry because someone doesn't like them or doesn't want them in a certain place. The law already outlines places such as courthouses and the airport where I cannot carry. This already makes sense, but imagine if an entire neighborhood or a city park became illegal. You know that almost all so called "mass shootings" happen in places where guns are not allowed? Why make more areas of opportunity for these psychos? Please consider, the folks who have a CCW are already upstanding citizens, who have chosen to defend their life, their families, and those around them. They already pass multiple background checks. I encourage you to kill this dangerous bill so you do not create more felons out of good people, and more opportunities for mass shooters.
