

Good day Legislators;

My name is Terry McKnight and I oppose SB 554 and I ask that you not waste any time on any proposed legislation that circumvents our 2nd Amendment right to keep and bear arms.

How is disarming legally carrying citizens making life more secure for them or their families?

Criminals will still carry a weapon concealed should they desire to do so; no matter what laws you may enact. Disarming law abiding citizens of their rights, only makes them more vulnerable to the lawlessness of the criminals and also negates the possible saving of their life and or the lives of fellow citizens during an act of lawlessness.

Thank you for your time and consideration, Terry
