

Sir or ma'am,

I oppose this bill because it serves only the purpose of turning CHL holders and regular citizens into criminals by simply passing by a public area. A CHL and constitutional carry is a very important life saving right. I know because a CHL holder once saved mine during a robbery.

If anything all gun laws in Oregon should be repealed and removed from Oregon law.

It does not matter what party or belief you hold because in America a firearm is a right. The right to protect oneself should never be licensed or controlled by American government officials. This is highly dangerous and precarious to assume only police and elected officials are allowed to surpass the rules they impose upon regular citizens.

In closing this proposed law should never be implemented and officials should be more concerned with housing and public health than stripping rights of citizens whom most cannot afford an attorney to contest the law that now injures them.

Thank you.
