

First off, thank you each for your service to our great State. This Bill is a solution looking for a problem to solve. We concealed carry permit holders have a long history of respecting the law and have not abused our rights to justify ANYTHING like this Bill proposes. On the contrary, concealed carry holders have a record of successful self-defense of not only ourselves, but other innocent people in public settings. Creating more "safe" zones only opens up more opportunities for bad/sick people to inflict their chaos and often times death on the unsuspecting... PLEASE vote this bad bill down!!!

Thanks again,
Bob Seldon
