

Chair Prozanski, Vice-chair Thatcher

Thank you for the opportunity to testify. My name is Rossella Pogue. I come before you to testify regarding SB 554. This bill is a very serious step in the wrong direction for the people of Oregon. I don't find anywhere in the bill reason enough for Oregon Senators to defy the citizens of Oregon and thus the citizens of the United States their 2nd Amendment rights or our Constitution in any way. That 2nd Amendment was written into the Bill Of Rights for us so that we could insure we have all the other nine and it would be very foolish of us to do anything that isn't insuring those Amendments to be protected. For you to send this bill on, it would indicate you do not feel the same way about our liberties or our Constitution, and you don't take seriously your responsibility to protect it. Please do not make that mistake. Please consider heavily the responsibility that being elected to your position holds with it for your constituency, the Oregon citizens and those American's who need their elected officials to protect their liberties! Please kill this bill in this committee.

Thank you so much for your consideration
