Removing constitutional rights **MUST NOT BE DONE** behind closed doors nor without the representation of your constituents. This is tantamount to a dictatorship.

WHY would you sneak this through?????? Why would you remove the power of law-abiding citizens to protect themselves? And ultimately, what is the purpose of this law? To control law-abiding citizens? It certainly will not change how criminals act other than give them more freedoms to attack law-abiding citizens.

I strongly oppose the passage of any bill that removes any part of my constitutional rights. I am in extreme opposition to the passage of any bill which is done covertly and behind closed doors.

I pay taxes. I have lived and worked in Oregon nearly all my life. I am the citizen you **must** represent! **DO NOT PASS THIS BILL**. It is the gateway to a dictatorship. This is what you are deciding---behind your closed doors.

You must remember that the freedoms we have in America were established in direct correlation to what evils founding fathers/mothers fled from. Are you going to be those evils????????
