

After witnessing months of police misconduct and abuse of power in 2020 (though i know it has been going on for decades), i know that "interfering with a police officer" was their favorite charge against a protestor. That charge was misused and overused. It was a way to scare protestors and sometimes force them to spend a night in jail.

police have too much power. they need to be reined in. HB 3164 would help in that effort.  
please pass HB 3164.
