

Dear Senate Judiciary Committee,

I am firmly opposed to this bill. It is an unnecessary impingement on our 2nd Amendment Rights. It does nothing to address the source of crime and violence in our society. As we enter an absurd time of defunding the police, while allowing alt-left riots to go on and on with no consequences other than murder, physical assaults, destruction of businesses, private property, and sky rocketing insurance rates, the need for citizens to be self-reliant concerning their personal security has never been greater. SB554, along with pending SB585, SB396, SB604, HB2510, and HB2543 should be rejected out of hand as part of the cancel culture trying to deconstruct our civil rights, our Bill of Rights. I suppose my biggest question is why would representatives of the people intentionally put their constituents harm's way?

Regards,

Harry W Wallace
