

SB554 is unconstitutional and is a blatant attempt to gut the Second Amendment. All committee members must abide by their constitutional oath and refuse to pass SB554 out of committee. If you allow destruction of the Second Amendment, it's a very slippery slope to the destruction of the rest of the Bill of Rights and, finally, the Constitution itself. How will you explain yourself to your children when they ask you what happened to the Republic that was formed with such great hope by the founding fathers of our country?
