

My husband and I join in the battle to preserve our rights by fighting back on SB 554. We come before you in opposition to this senate bill and the right to legally carry a concealed handgun. Among other common sense reasons for being able to carry protection, we rely on our head usher at church to use his veteran experience and hand gun in the case of foul play or an attempt to put the congregation in danger.  
We the committee to Kill the Bill.

Ann Hall
