

SB 571 is not needed. Felons are allowed to vote upon their release from custody and are provided with a voter registration card up on release.

I can see law suites alleging all kinds of fraud and intimidation over handling of ballots in a correctional institution.

I fully support a citizen being able to vote after their debt to society is paid. But not while paying that debt.

Please do not allow this bill to proceed out of this committee.

Thank you for your time and service.

Pollard
