

SB is a really bad idea. Since over 97% of the "mass shootings" occur in these "gun free" zones, making more of the would be insane. While there seems to be a lot of animosity for law abiding gun owners in Salem and DC with the criminals and their evil ways being accepted by you folks since you don't want to address the actual problem in any of your bills. It seems truly backwards and with a definition of knowing better and doing it anyway, it is truly a stupid thing to do.
