

Good morning.

I do not support this bill. I do not support any bill that limits concealed or open carry. The bad guys will always do as they please, it is only the law abiding ones who will even notice the changes that are proposed. As I read this law the main things it does is increase the penalty for carrying where a person should not and increases the fees to have the right to carry concealed.

I do not support either goal and urge you to not either.

Thank you,

Brandan Topham
