

As a public high school teacher, I am writing in support of this bill, and urge a yes vote. For years, I have watched news reports of school shootings, nightclub shootings, theater shootings mall shootings, church shootings. And then came Jan. 6, and open threats by federal legislators against federal legislators. I am in complete sympathy with public officials and staff in our State Capitol who feel like "sitting ducks."

Please do the sane, safe thing and vote in favor of this bill.
