

Thank you all for being here today, thank you for your service to the citizens of this great state. This bill undermines the very fabric of our constitution. Conceal handgun license carriers break the law statistically less than law enforcement. And this bill is proposing the citizens entrust safety to law enforcement. But at the same time, legislation exists to exempt law enforcement from liability for when a citizen gets hurt. Seems to be more so to protect the state government from having to pay out settlement when a police officers negligent actions directly influence the outcome of someone else's life! But yet, this bill proposes that we entrust our safety and family's safety to the law enforcement. Forward to say, this "public" government we have here is shut from the public because of COVID-19. However our numbers in this state are dropping being used to benefit the agenda of policy to take Constitutionally given rights! It is blatant hypocrisy, when a facade as Mike Bloomberg gave a hefty donation to the Democratic Party supporting this bill. Legislators, your opinions and actions have direct short term effect and more so long term effect. I plead with you, as a Law abiding citizen, who will continue to abide by the law do not pass this bill. You will be doing a disservice to your citizens.
