

My name is Dan Barnett. I own a Seafood & Steak restaurant with a Sports bar called Billy Smoothboars in Bandon, Oregon. We have been devastated by the discriminatory mandates handed down by Governor Brown. We have been singled out for closure with no science to back up the closures, while others like Walmart are allowed to remain open. The use of extortion in order for us to comply is appalling! Threatening and actually revoking our OLCC license if we do not comply to her unfounded demands is nothing less than extortion! Now she has the gaul to open up your lottery for her own gain while still keeping our Restaurant and Bar closed to service. This is against our agreement in order to have a Lottery license. We MUST serve food & drink in order to maintain or lottery license agreement! But, when convenient for her, she omits that portion of the agreement! She is playing with the business owners and their employees livelihood just because she thinks she can! There is no numbers she can use, no science she can use or no excuses she can use to justify her discriminatory actions. When we ask for the amount of cases attributed to our industry, she refuses to answer! Why is that Ms. Brown? We know... because unless you falsify those numbers you can not justify your actions against us! OPEN US UP NOW!
