

As a law-abiding citizen, I am absolutely opposed to this bill. This legislation is simply governmental overreach that has no justification in fact and could actually produce a hazard for others. This bill would force concealed carriers to remove a concealed firearm and leave it unattended in a vehicle when entering a public building. An unattended firearm may be stolen easily and used by criminals in the commission of a crime. Obviously, those who attend concealed carry classes and obtain a license are not a criminal threat, yet this bill would treat them as such and actually increase the likelihood of criminals obtaining firearms.

Thank you,  
Joseph Duncan
