

As an Oregon resident I believe in my right to have a CCL and carry a legal wepon responsibly. If legal law abiding citizens are disarmed the only ones with guns (except law enforcement) will be the criminal. If bad people know good people do not have guns they can feel much braver in their illegal habits. Leave our gun laws as they are. We do not need more laws we need the laws that have been passed to be used. Passing new laws does not make us safer it makes us more controlled with less freedoms.
