

I oppose this bill. As a mother of 2 children, me and my husband are in the process of getting our concealed carries, and I would feel safer being able to carry. Any law abiding citizen who is carrying a concealed carry isn't a criminal. Passing this bill will not stop the criminals from doing what they want but it will greatly decrease the chance of a law abiding conceal carry person to be able to defend them selves if there were an emergency like a public shooting. I urge you to please not pass this bill.
