

Thank you for this opportunity to testify,

There seems to be a shell game going along with this process. Meeting cancelled? Meeting restored? Who or what and why is it becoming more difficult to be heard?

That aside, this proposal reflects the attitude that citizen's rights do not exist. Legislators can arbitrarily infringe upon, suspend, reduce and curtail our rights, regardless of what our Oregon state constitution clearly states? Regardless of our national constitution? I reject this assumption as damaging to our very republic.

If you pass this law, you are endangering citizens.

If you pass this law, you empower criminals.

If you pass this law, you victimize the powerless.

if you pass this law, you enable all enemies, both foreign and domestic.

If you pass t his law, you violate your oat of office.

Do you mean by this that our rights only exist on or off certain properties defined by you? My rights come and go with my location on earth? Who died and made you GOD? No one.

Stop the nonsense.
