

Please support this bill. Our restaurant and entertainment industry can not suffer shut downs ever again like the one we are going through now. College kids can't make school money, our business can't pay property taxes, loss of income for all involved, (janitors, bar employees, restaurant cooks etc etc) And the banks with loans to businesses. Too much extraneous suffering happened and is STILL happening. Extra cost with plastic shields and tents. So many supporting businesses were affected not doing business with us. Truck drivers, food providers, the list is endless for those who have suffered with restaurants and other activities being closed. Please help us with this bill, WE can never do this again.
