

Chair Prozanski and Vice Chair Thatcher:

My name is Toni Carrasco, Tualatin, OR

Please read into record as public testimony.

Please kill SB554 bill in committee. There are too many unintended consequences.

Think about your own family and friends. Everyone has someone in their family that they can see getting in trouble because they married to, or live with someone, or have family members nosy neighbors who are vindictive. This removes protection from citizens. Please don't do it.
