

I didn't receive any confirmation that my first text testimony had been received, so I want to submit this to make sure that as a CCP holder, and a senior Oregon resident my position was represented. For over 20 years I have been a CCP holder, obeying the law. This bill presents a trap, as there is no way for a CCP holder to obey it, and still carry. Why is this bill in the best interest of Oregon citizens? How will it ACTUALLY protect them better? New laws that penalize law abiding citizens, do NOT benefit anyone, but those who have no interest in obeying the law. Why is the Chair of this committee against CCP holders? Either exempt CCP holders, or kill this bill, it is not in the best interest of Oregonians.
