

hi. hope all is well.. i strongly oppose this bill and any bills aimed at taking away rights from law abiding citizens.. i feel like this is yet another attack on my constitutional rights and god given right to protect myself.. as a middle aged woman i was recently forced to consider and follow through getting a concealed carry permit to protect myself due to the rise in crime.. i watched every night for months as oregon government and "leadership" encouraged violence and criminal behavior against conservative law abiding citizens and against our police officers..beyond shameful.. my great grandfather and one of his sons were accepted as refugees to this county to escape the very tyranny i feel is going on now..i do not appreciate my rights being constantly threatened while criminals are being incentivised..feels like communism to me.. stop it. thankyou for your consideration.. more pending...peace
