

Dear Senate Committee on Judiciary,

Thank you for taking the time, I'm reaching out to ask you to oppose SB 554. Not only will the passage of this bill trample on the second amendment that was put forth by the people that created this country but it will also disarm and criminalize good upstanding people but not so with people that are into criminal activities. Those people will continue to get firearms and attack the rest of us because they will know we don't have firearms for protection. Thank you.
