

I would like to submit a professional, point by point, opposition to this bill. But honestly it's so stupid as to not deserve the time. Ultimately, we can't be a state run by anti-science, anti-community fringe insurrectionists. The science is clear on social distancing and the spread of covid-19. It is not the flu. Public health protections are not a violation of the state or federal constitution. Please shut this nonsense down and move on to helping people recover from the covid crisis.
