Re: I OPPOSE [SB 559]...I'm still laughing at "Goat Yoga." I guess Goat Yoga is therapeutic.

Agritourism has been a bane to rural Oregon since its' inception.

All sorts of commercial activities on Exclusive Farm Use (EFU) lands are being permitted that have nothing to do with a farm or farm products.

Take Yamhill County for example. Review the LUBA's Final Rulings.

LUBA has "paddled the bare rumps" of Yamhill government officials so many times, when someone appeals one of their Land Use decisions, they just "assume the position."

Yamhill County officials, generally speaking, are quite stupid when making Planning Decisions on Land Use issues.

Yamhill County officials are really, the full employment act for the Land Use Board of Appeals as well as the Appellate Division.

**Yamhill County screwed up with siting a Marijuana Processing Refineries on EFU land. This refinery if ignited would cause an explosion leveling properties and the resulting conflagration could be equivalent to a Biblical plague. [<https://savechalemmountain.com/>]

Goat Yoga proponents may try to convince Yamhill County planners to permit their respective commercial activity on EFU lands.

The "Goat folks" might be successful in Yamhill County.

***My main concern is the Goat Yoga folks might be paving the way back for the Rajneeshees and the reestablishment of Rajneeshpuram.**

Respectfully submitted,

/s/ David S. Wall
