

Dear Senators,

I am writing you today in regards to SB 554. It's my Personal and Professional opinion that this Senate Bill is really bad for the citizens of Oregon. Decreasing the places law abiding citizens can carry a firearm concealed in public makes our citizens more vulnerable and does nothing to make the public safer. I know there is a lot of fear and emotions being used to demonize firearms and law abiding gun owners. What can't misrepresented or misinterpreted is the data, 94% of all mass killings happen in gun free zones. This information comes from the Crime Research Center, they are the foremost expert on this subject matter. I strongly urge you to vote NO on SB 554. This is bad for all of Oregon. Thank you for your time!!

Sincerely,
Derek LeBlanc
