

Committee members,

Please do not move this bill forward, Allowing Judges to make the sentencing for the most violent criminals goes against the will of Oregon voters. Then this bill will restrict Law enforcement from doing their job, like keeping Johns off the streets, Law enforcement has been keeping our communities safe by letting citizens know when their vehicle has an equipment problem or arresting hoodlums that interfere with public transportation. Where will that \$2,500,00 money be sent for the Reimagine Safty Fund, from everything I've seen this movement has been detrimental in the issues it proposes.
