

We dont need a timber tax. We need to do strip logging around each 20,000 acers. This will provide sustainable loggine and the state and counties will get the money from that. The Green New deal and Paris Climate accord are the wrong solution. The Intergovernmental Panel on Climate Change reports are inaccurate and are falsely skewing Data. [Htts://cctruth.org/ipcc.pdf](https://cctruth.org/ipcc.pdf) Publishing garbage manuscripts in a journal whose chief editor that has a degree in Political Science. Is not science.

11th Climate Change Conference https://cctruth.org/GES_12-14-2020.pdf

These are well documented facts about Climate Change

-Atmospheric CO2 is not an emissions issue; it's a loss of photosynthesis issue due to deforestation.

-IPCC GWP model is false Methane is less of a greenhouse gas than carbon dioxide.

-Global sea rise is 1.1 mm/yr and linear not accelerating!
