

Drug Price Transparency Program updates

HB 2044

Drug Price Transparency - Program overview

The program is directed by statute to receive:

New drug reports for high cost drugs

Annual price increase reports

60-day advance notice of a price increase

Insurers reports on top 25 lists

Consumers reports on price increases

HB 2044 – Technical fixes for the Drug Price Transparency Program

The bill provides changes to improve the implementation of the program through:

- Enabling efficient access to the All Payer, All Claims database
- Protecting sensitive and personally identifiable consumer information reported to the program

HB 2044 – Technical fixes for the Drug Price Transparency Program

The bill provides changes to improve the implementation of the program through:

- Requiring new drug reports to include information on patient assistance programs
- Expanding health insurer reporting by requiring reports from other insurance markets
