Re: I OPPOSE[SB 582]...You take a much needed concept for environmental glory and you screwed it up, again!

The concept of "Modernizing Oregon's Recycling Programs" is needed and way overdue.

But, you had to "kill" [SB 582] with the "Proposed Amendments."

(93) pages of "Proposed Amendments" is intentional legislative conduct.

The "Modernizing of Oregon's Recycling Programs" under [SB 582] as written, will not happen.

Voters will remember your, deceitful conduct and mismanagement of our Environmental needs and concerns.

...ZERO WASTE...

Respectfully submitted,

/s/ David S. Wall
