

I have been stuck on the highway in traffic wearing full leather safety riding clothing in the heat of summer. Stuck in a helmet, sweat dripping into my eyes until I couldn't see, my eyeglasses fogging up, feeling the heat from my exhaust pipes, is a miserable place to be. Motorcyclists are air cooled! We need to keep moving, even at a slow speed. Lane sharing would be a godsend in some circumstances. I hope this bill will pass! Please support it.
