

I'm writing to you today in full support of Lane Splitting. I am a 61 year old woman, who has ridden motorcycles all over the Americas and Europe. I'm here in part because lane splitting is allowed in most countries and some states - and once it saved my life. Please consider this bill positively as we need it (and the education of drivers that goes along with it). Take a look at how the Australian's and particularly in Sydney manage their poster campaign for motorcycle awareness. It's important that this is made legal - JUST DO IT!!!

Thank you

Suze Riley
