

Chair and members of the Committee. HB 2543 should not be passed and should die here. It is designed to allow for endless delays for the purchase of a firearm without any reason for the delay by the State Police doing the back ground check. This bill is being presented as a means of denying law abiding Oregonians their Second Amendment rights. There is no reason to allow the State Police to refuse to do back ground checks without a valid reason. Law abiding Oregonians deserve better than this. Please kill HB-2543. Thank you.
