

I respectfully request your support of SB574. As an avid motorcycle enthusiast, I've found it can be very dangerous being stuck in traffic. The fear of being struck in a rear-end collision, or being trapped in the elements without the inability to maneuver through congestion is one of the toughest aspects of being a motorist on 2 wheels. SB574 would provide motorcyclists a safe opportunity to navigate through traffic congestion.

Respectfully,

-Shawn C. Todd
