#### **BACKGROUND:**

In 2021, the Legislative Assembly enacted House Bill 2100, which clarified Oregon Housing and Community Services' role and responsibilities in administering federal antipoverty programs. The measure established the Task Force on Homelessness and Racial Disparities to address racial disparities in the provision of and access to homeless services programs across the state. The Task Force provided an initial report to the Legislative Assembly on January 15, 2022, which included recommendations that the Task Force be allowed more time to develop recommendations for changes to funding structure, contracts and services for individuals experiencing homelessness and housing insecurity. House Bill 4051 extends the Task Force sunset date to January 2, 2026 and clarifies reporting requirements.

## HB 4051 -3 STAFF MEASURE SUMMARY

To address temporary shelter needs for Oregon’s growing homeless population, the Legislative Assembly enacted House Bill 2006 (2021), which required local governments to approve a qualified application for the development or use of land for an emergency shelter, notwithstanding local land use regulations, zoning ordinances, comprehensive or other locally adopted plans. It allowed local governments to approve an emergency shelter application through July 1, 2022, and directed Oregon Housing and Community Services to expend Emergency Housing Account funds for technical assistance for organizations to develop and operate emergency shelters or transitional housing accommodations until January 2, 2024. House Bill 4051 extends the sunset date for local governments to approve an emergency shelter application to July 1, 2023.

Senate Bill 8 (2021) restricted local governments from denying or limiting the approval of affordable housing applications, subject to certain zoning and property ownership conditions. The measure established density standards and conditions under which local governments must approve affordable housing applications. House Bill 4051 corrects an error in the original bill to clarify that eligibility is based on ownership of the property on which the affordable housing is located, and not on the housing itself.
