Summary of Revenue Changes

Senate Bill 1579 makes a one-time General Fund appropriation of \$15 million to establish the Economic Equity Investment Fund, which will provide funding for the Economic Equity Investment Program. Additionally, the bill establishes \$15 million in Other Funds expenditure limitation for payment of expenses from the Fund.

Summary of Transportation and Economic Development Subcommittee Action

SB 1579 establishes the Economic Equity Investment Program, within the Oregon Business Development Department (OBDD), for the purpose of awarding grants to organizations providing culturally responsive services supporting economic stability, self-sufficiency, wealth building and economic equity among disadvantaged individuals, families, businesses, and communities in Oregon. The grant funds are to be awarded to organizations only for proposals to provide outreach, support and resources to individuals, families, businesses or communities whose future are at risk. The bill authorizes OBDD to provide technical assistance to organizations receiving grant money. The bill requires OBDD to conduct biennial evaluations of the services of the program and report to interim legislative committees by September 15 of each even-numbered year. Eight limited duration positions (3.00 FTE) are authorized to be established for the administration of the program. Senate Bill 1579 becomes operative on January 1, 2023; however, the bill allows OBDD to begin implementation of the program in advance of that date, beginning 91 days post sine die.
