25 **SECTION 41.** ORS 527.630 is amended to read:

26 527.630. (1) Forests make a vital contribution to Oregon by providing jobs, products, tax base and other social and economic benefits, by helping to maintain forest tree species, soil, air and water resources and by providing a habitat for wildlife and aquatic life. Therefore, it is declared to be the public policy of the State of Oregon to encourage economically efficient forest practices that ensure the continuous growing and harvesting of forest tree species and the maintenance of forestland for such purposes as the leading use on privately owned land, consistent with sound management of soil, air, water, fish and wildlife resources and scenic resources within visually sensitive corridors as provided in ORS 527.755 and to ensure the continuous benefits of those resources for future generations of Oregonians.

35 (2) It is recognized that operations on forestland are already subject to other laws and to regulations of other agencies which deal primarily with consequences of such operations rather than the manner in which operations are conducted. It is further recognized that it is essential to avoid uncertainty and confusion in enforcement and implementation of such laws and regulations and in planning and carrying out operations on forestlands.

40 (3) To encourage forest practices implementing the policy of ORS 527.610 to 527.770, [and] 527.990 and 527.992, it is declared to be in the public interest to vest in the State Board of Forestry exclusive authority to develop and enforce statewide and regional rules pursuant to ORS 527.710 and to coordinate with other state agencies and local governments which are concerned with the forest environment.

45 **(4) It is recognized that ensuring compliance with, and enforcing, ORS 527.610 to 527.770**

1 and rules and orders adopted or issued thereunder is essential to protect Oregon's natural  
2 resources. It is further recognized that onsite inspections are necessary to further the policy  
3 of ORS 527.610 to 527.770, 527.990 and 527.992.

4 (5) It is recognized that enforcement of the policy of ORS 527.610 to 527.770, 527.990 and  
5 527.992 is necessary to support the integrity of the policy and give the public confidence that  
6 standards for forest practices are being followed. It is further recognized that an effective  
7 enforcement program must include:

8 (a) Adequate training and education of enforcement officers, operators, timber owners  
9 and landowners.

10 (b) Clear technical guidance.

11 (c) Implementation expectations that are transparent and easily understood by operators,  
12 timber owners and landowners.

13 (6) It is declared to be the policy of the State of Oregon that the program for imple-  
14 menting enforcement under ORS 527.680, 527.683, 527.685, 527.690 and 527.700 be adequately  
15 funded, and that the board:

16 (a) Use inspections and enforcement as tools to deter future violations and to educate  
17 and train operators, timber owners and landowners.

18 (b) In exercising enforcement discretion, including discretion to impose penalties, prior-  
19 itize addressing significant violations, other consequential violations and the actions of re-  
20 peat violators.

21 [(4)] (7) The board may adopt and enforce rules addressing scenic considerations only in ac-  
22 cordance with ORS 527.755.

23 [(5)] (8) The board shall adopt and enforce forest practice rules to reduce the risk of serious  
24 bodily injury or death from a rapidly moving landslide only in accordance with ORS 527.710 (10).  
25 As used in this subsection, "rapidly moving landslide" has the meaning given in ORS 195.250.

26 [(6)] (9) The State of Oregon should provide a stable regulatory environment to encourage in-  
27 vestment in private forestlands.

28 **SECTION 42.** Sections 43 and 44 of this 2022 Act are added to and made a part of ORS  
29 527.610 to 527.770.

30 **SECTION 43.** (1) The State Forester, or a representative of the State Forester, shall  
31 conduct a program of inspections of forestland within the operating areas of operations for  
32 which notifications are filed pursuant to ORS 527.670 (6), at regular intervals, to assess  
33 compliance with ORS 527.610 to 527.770 and rules and orders adopted or issued thereunder.

34 (2) The inspection may occur:

35 (a) On or after the date on which notification is filed pursuant to ORS 527.670 (6), but

38 (b) Only at a reasonable time, absent consent or a warrant.

39 (3) The person conducting the inspection shall:

44 527.770 and rules and orders adopted or issued thereunder.

45 (4) The State Forester may petition the circuit court of this state having jurisdiction over

1 **the forestland for a warrant authorizing the State Forester or a representative of the State**  
2 **Forester to inspect the forestland.**

3 **(5) The court may issue a warrant if:**

4 **(a) The State Forester or a representative of the State Forester has attempted inspection**  
5 **consistent with subsections (1) to (3) of this section and access to all or part of the**  
6 **forestland was actually or constructively denied; or**

7 **(b) The State Forester has reasonable cause to believe that a violation of ORS 527.610 to**  
8 **527.770 or a rule or order adopted or issued thereunder has occurred.**

9 **SECTION 44. (1) As used in this section, “photogrammetric mapping” has the meaning**  
10 **given that term in ORS 672.002.**

11 **(2) To aid in monitoring compliance with ORS 527.610 to 527.770 and rules adopted**  
12 **thereunder, the State Board of Forestry shall adopt rules that:**

13 **(a) Require persons that file notifications pursuant to ORS 527.670 (6) to inform the State**  
14 **Forester when the operations are complete, within a reasonable time after completion;**

15 **(b) Authorize the State Forester to use a program of photogrammetric mapping to de-**  
16 **termine whether operations for which notifications have been filed pursuant to ORS 527.670**  
17 **(6) have been completed; or**

18 **(c) Otherwise establish a program for determining when operations for which notifica-**  
19 **tions have been filed pursuant to ORS 527.670 (6) have been completed.**

20 **(3) Rules described in subsection (2)(b) or (c) of this section must limit the discretion of**  
21 **the person conducting the compliance monitoring.**

22 **SECTION 45. ORS 527.680 is amended to read:**

23 **527.680. (1) Whenever the State Forester determines that an operator has committed a violation**  
24 **under ORS 527.990 (1), the State Forester may issue and serve a citation upon the operator or au-**  
25 **thorized representative. The State Forester shall cause a copy of the citation to be mailed or de-**  
26 **livered to the timber owner and landowner. Whenever the State Forester determines that the**  
27 **landowner has failed to comply with the reforestation rules under ORS 527.710, the State Forester**  
28 **may issue and serve a citation upon the landowner or authorized representative. Each citation is-**  
29 **sued under this section shall specify the nature of the violation charged and any damage or unsat-**

31 **(2) Whenever a citation is served pursuant to subsection (1) of this section, the State Forester:**

32 **(a) Shall issue and serve upon the landowner or operator or authorized representative an order**  
33 **directing that the landowner or operator cease further violation. If the order is served upon an op-**  
34 **erator, the State Forester shall cause a copy of such order to be mailed or delivered to the timber**  
35 **owner and landowner; and**

36 **(b) May issue and serve an order upon the landowner or operator and shall cause a copy of such**  
37 **order to be mailed or delivered to the timber owner and landowner, directing the landowner or op-**  
38 **erator, where practical and economically feasible, to make reasonable efforts to repair the damage**  
39 **or correct the unsatisfactory condition specified in the citation within a period specified by the**  
40 **State Forester.**

41 **(3) In the event the order issued under subsection (2)(a) of this section has not been complied**  
42 **with, and the violation specified in such order is resulting in continuing damage, the State Forester**  
43 **by temporary order[,] may direct the landowner or operator to cease any further activity in that**  
44 **portion of the operation that is resulting in such damage. Such temporary order shall be in effect**  
45 **until the date of the expiration of the period as prescribed in subsection (4) of this section or until**

1 the date that the violation ceases, whichever date occurs first.

2 (4) A temporary order issued under subsection (3) of this section shall be served upon the  
3 landowner or operator or authorized representative, and the State Forester shall cause a copy of  
4 such temporary order to be mailed or delivered to the operator, timber owner and landowner. If  
5 requested by the operator, timber owner or landowner, the State Board of Forestry, following the  
6 appeal procedures of ORS 527.700, must hold a hearing on the temporary order within five working  
7 days after the receipt by the board of the request. A temporary order issued and served pursuant  
8 to subsection (3) of this section shall remain in effect not more than five working days after such  
9 hearing unless the order is sooner affirmed, modified or revoked by the board.

10 (5) If a landowner or operator fails to comply with a final order issued under subsection (2)(b)  
11 of this section within the time specified in the order, or if the landowner or operator fails to comply  
12 with a final order imposing civil penalties for violation of any provision of the Oregon Forest  
13 Practices Act, the State Forester may issue an order that prohibits the affected landowner or oper-  
14 ator from conducting any new operations on any forestland in this state until the landowner or op-  
15 erator has complied with the order to correct an unsatisfactory condition, make repair or pay the  
16 civil penalty, as the case may be, to the satisfaction of the State Forester.

17 **(6) The State Forester may require an operator, timber owner or landowner to provide**  
18 **financial assurance before conducting a new operation if the State Forester has, within the**  
19 **preceding three-year period, made a finding under ORS 527.685 (6) applicable to the operator,**  
20 **timber owner or landowner.**

21 **SECTION 46.** ORS 527.685 is amended to read:

22 527.685. (1) The State Board of Forestry shall by rule establish the amount of civil penalty that  
23 may be imposed for a particular violation. Except as provided in [subsection (5)] **subsections (5) and**  
24 **(6)** of this section, [no] a civil penalty [shall] **may not** exceed [\$5,000] **\$10,000** per violation.

42 financial condition of the person in determining whether a penalty shall be remitted or mitigated.

43 (4) The board, by rule, may delegate to the State Forester, upon such conditions as deemed  
44 necessary, all or part of the authority of the board provided in subsection (3) of this section to as-

2 the State Forester may impose a civil penalty in an amount equal to the estimated cost of reforest-  
3 ing lands pursuant to ORS 527.690.

4 **(6) If the State Forester makes a finding that an operator, timber owner or landowner**  
5 **has a history of significant violations that shows a pattern of willful disregard for the re-**  
6 **quirements of ORS 527.610 to 527.770 or rules or orders adopted or issued thereunder, the**  
7 **State Forester may impose a civil penalty in an amount not to exceed \$50,000 per significant**

22 are set in statute.

23 (c) Rules adopted to implement the provisions of ORS 527.710 (2), (3), (6), (8), (9) and (10) that

25 dressed in statute.

26 (2) When considering the adoption of a rule, and prior to the notice required pursuant to ORS  
27 183.335, the board shall determine which type of rule described in subsection (1) of this section is

35 this section, and the proposed rule would change the standards for forest practices, the board shall  
36 describe in its rule the purpose of the rule and the level of protection that is desired. **If the pro-**

39 (a) **Requirements described in the Private Forest Accord Report dated \_\_\_\_ and published**  
40 **by the State Forestry Department on \_\_\_\_; or**

2 are met:

3 (a)(A) If forest practices continue to be conducted under existing regulations[,]:

4 (i) There is monitoring or research evidence that documents that degradation of resources  
5 maintained under ORS 527.710 (2) or (3) is likely[,]; or

28 protection[; *and*].

29 [*f) The benefits to the resource, or in the case of rules proposed under ORS 527.710 (10), the*  
30 *benefits in reduction of risk of serious bodily injury or death, that would be achieved by adopting the*

2 **SECTION 69.** ORS 527.630, as amended by section 41 of this 2022 Act, is amended to read:

3 527.630. (1) Forests make a vital contribution to Oregon by providing jobs, products, tax base  
4 and other social and economic benefits, by helping to maintain forest tree species, soil, air and water  
5 resources and by providing a habitat for wildlife and aquatic life. Therefore, it is declared to be the  
6 public policy of the State of Oregon to encourage economically efficient forest practices that ensure  
7 the continuous growing and harvesting of forest tree species and the maintenance of forestland for  
8 such purposes as the leading use on privately owned land, consistent with sound management of soil,  
9 air, water, fish and wildlife resources and scenic resources within visually sensitive corridors as  
10 provided in ORS 527.755 and to ensure the continuous benefits of those resources for future gener-  
11 ations of Oregonians.

12 (2) It is recognized that operations on forestland are already subject to other laws and to reg-  
13 ulations of other agencies which deal primarily with consequences of such operations rather than  
14 the manner in which operations are conducted. It is further recognized that it is essential to avoid  
15 uncertainty and confusion in enforcement and implementation of such laws and regulations and in  
16 planning and carrying out operations on forestlands.

17 (3) To encourage forest practices implementing the policy of ORS 527.610 to 527.770, 527.990 and  
18 527.992, it is declared to be in the public interest to vest in the State Board of Forestry exclusive  
19 authority to develop and enforce statewide and regional rules pursuant to ORS 527.710 and to co-  
20 ordinate with other state agencies and local governments which are concerned with the forest en-  
21 vironment.

22 *[(4) It is recognized that ensuring compliance with, and enforcing, ORS 527.610 to 527.770 and*  
23 *rules and orders adopted or issued thereunder is essential to protect Oregon's natural resources. It is*  
24 *further recognized that onsite inspections are necessary to further the policy of ORS 527.610 to 527.770,*  
25 *527.990 and 527.992.]*

26 *[(5) It is recognized that enforcement of the policy of ORS 527.610 to 527.770, 527.990 and 527.992*  
27 *is necessary to support the integrity of the policy and give the public confidence that standards for*  
28 *forest practices are being followed. It is further recognized that an effective enforcement program must*  
29 *include:]*

30 *[(a) Adequate training and education of enforcement officers, operators, timber owners and land-*  
31 *owners.]*

32 *[(b) Clear technical guidance.]*

33 *[(c) Implementation expectations that are transparent and easily understood by operators, timber*  
34 *owners and landowners.]*

35 *[(6) It is declared to be the policy of the State of Oregon that the program for implementing*  
36 *enforcement under ORS 527.680, 527.683, 527.685, 527.690 and 527.700 be adequately funded, and that*  
37 *the board:]*

38 *[(a) Use inspections and enforcement as tools to deter future violations and to educate and train*  
39 *operators, timber owners and landowners.]*

40 *[(b) In exercising enforcement discretion, including discretion to impose penalties, prioritize ad-*  
41 *dressing significant violations, other consequential violations and the actions of repeat violators.]*

42 [(7)] (4) The board may adopt and enforce rules addressing scenic considerations only in ac-  
43 cordance with ORS 527.755.

44 [(8)] (5) The board shall adopt and enforce forest practice rules to reduce the risk of serious  
45 bodily injury or death from a rapidly moving landslide only in accordance with ORS 527.710 (10).

1 As used in this subsection, “rapidly moving landslide” has the meaning given in ORS 195.250.

2 [(9)] (6) The State of Oregon should provide a stable regulatory environment to encourage in-  
3 vestment in private forestlands.

4 **SECTION 70.** ORS 527.680, as amended by section 45 of this 2022 Act, is amended to read:

5 527.680. (1) Whenever the State Forester determines that an operator has committed a violation  
6 under ORS 527.990 (1), the State Forester may issue and serve a citation upon the operator or au-  
7 thorized representative. The State Forester shall cause a copy of the citation to be mailed or de-  
8 livered to the timber owner and landowner. Whenever the State Forester determines that the  
9 landowner has failed to comply with the reforestation rules under ORS 527.710, the State Forester  
10 may issue and serve a citation upon the landowner or authorized representative. Each citation is-  
11 sued under this section shall specify the nature of the violation charged and any damage or unsat-  
12 isfactory condition that has occurred as the result of such violation.

13 (2) Whenever a citation is served pursuant to subsection (1) of this section, the State Forester:

14 (a) Shall issue and serve upon the landowner or operator or authorized representative an order  
15 directing that the landowner or operator cease further violation. If the order is served upon an op-  
16 erator, the State Forester shall cause a copy of such order to be mailed or delivered to the timber  
17 owner and landowner; and

18 (b) May issue and serve an order upon the landowner or operator and shall cause a copy of such  
19 order to be mailed or delivered to the timber owner and landowner, directing the landowner or op-  
20 erator, where practical and economically feasible, to make reasonable efforts to repair the damage  
21 or correct the unsatisfactory condition specified in the citation within a period specified by the  
22 State Forester.

23 (3) In the event the order issued under subsection (2)(a) of this section has not been complied  
24 with, and the violation specified in such order is resulting in continuing damage, the State Forester  
25 by temporary order may direct the landowner or operator to cease any further activity in that  
26 portion of the operation that is resulting in such damage. Such temporary order shall be in effect  
27 until the date of the expiration of the period as prescribed in subsection (4) of this section or until  
28 the date that the violation ceases, whichever date occurs first.

29 (4) A temporary order issued under subsection (3) of this section shall be served upon the  
30 landowner or operator or authorized representative, and the State Forester shall cause a copy of  
31 such temporary order to be mailed or delivered to the operator, timber owner and landowner. If  
32 requested by the operator, timber owner or landowner, the State Board of Forestry, following the  
33 appeal procedures of ORS 527.700, must hold a hearing on the temporary order within five working  
34 days after the receipt by the board of the request. A temporary order issued and served pursuant  
35 to subsection (3) of this section shall remain in effect not more than five working days after such  
36 hearing unless the order is sooner affirmed, modified or revoked by the board.

37 (5) If a landowner or operator fails to comply with a final order issued under subsection (2)(b)  
38 of this section within the time specified in the order, or if the landowner or operator fails to comply  
39 with a final order imposing civil penalties for violation of any provision of the Oregon Forest  
40 Practices Act, the State Forester may issue an order that prohibits the affected landowner or op-  
41 erator from conducting any new operations on any forestland in this state until the landowner or op-  
42 erator has complied with the order to correct an unsatisfactory condition, make repair or pay the  
43 civil penalty, as the case may be, to the satisfaction of the State Forester.

44 [(6)] *The State Forester may require an operator, timber owner or landowner to provide financial*  
45 *assurance before conducting a new operation if the State Forester has, within the preceding three-year*

1 *period, made a finding under ORS 527.685 (6) applicable to the operator, timber owner or*  
2 *landowner.]*

3 **SECTION 71.** ORS 527.685, as amended by section 46 of this 2022 Act, is amended to read:

4 527.685. (1) The State Board of Forestry shall by rule establish the amount of civil penalty that  
5 may be imposed for a particular violation. Except as provided in [subsections (5) and (6)] **subsection**  
6 **(5)** of this section, a civil penalty may not exceed [*\$10,000*] **\$5,000** per violation.

7 (2) In imposing a penalty authorized by this section, the State Forester may consider the fol-

20 correct the violation.

21 (3) The penalty imposed under this section may be remitted or mitigated upon such terms and  
22 conditions as the board determines to be proper and consistent with the public benefit. Upon the  
23 request of the person incurring the penalty, the board shall consider evidence of the economic and  
24 financial condition of the person in determining whether a penalty shall be remitted or mitigated.

25 (4) The board, by rule, may delegate to the State Forester, upon such conditions as deemed  
26 necessary, all or part of the authority of the board provided in subsection (3) of this section to as-  
27 sess, remit or mitigate civil penalties.

28 (5) For a violation of ORS 527.745, or rules for reforestation adopted pursuant to ORS 527.745,  
29 the State Forester may impose a civil penalty in an amount equal to the estimated cost of reforest-  
30 ing lands pursuant to ORS 527.690.

31 *[(6) If the State Forester makes a finding that an operator, timber owner or landowner has a his-*  
32 *tory of significant violations that shows a pattern of willful disregard for the requirements of ORS*  
33 *527.610 to 527.770 or rules or orders adopted or issued thereunder, the State Forester may impose a*  
34 *civil penalty in an amount not to exceed \$50,000 per significant violation. In imposing the penalty, the*  
35 *State Forester shall consider, in addition to the factors described in subsection (2) of this section:]*

36 *[(a) The degree, if any, to which the operator, timber owner or landowner derived economic benefit*  
37 *from the significant violation.]*

38 *[(b) The proportion of total operations conducted by the operator, timber owner or landowner re-*  
39 *lated to which significant violations have occurred compared to the total number of operations con-*  
40 *ducted by the operator, timber owner or landowner, while accounting for the organizational structure*  
41 *of the operator, timber owner or landowner.]*

42 **SECTION 72.** ORS 527.714, as amended by section 47 of this 2022 Act, is amended to read:

10 **(f) The benefits to the resource, or in the case of rules proposed under ORS 527.710 (10),**  
11 **the benefits in reduction of risk of serious bodily injury or death, that would be achieved by**

In any such action, upon plaintiff's proof of ownership of the premises and

1 the commission by the defendant of any of the acts mentioned in this section, it is prima facie evi-  
2 dence that the acts were committed by the defendant willfully, intentionally and without plaintiff's  
3 consent.

4 (2) A court may, in its discretion, award to a prevailing party under subsection (1) of this section  
5 reimbursement of reasonable costs of litigation including but not limited to investigation costs and  
6 attorney fees.

7 (3) A court may, in its discretion, award to a prevailing plaintiff under subsection (1) of this  
8 section reasonable costs of reforestation activities related to the injury sustained by the plaintiff.

9 (4) A contract logger is liable only for actual damages in an action under this section if:

10 (a) The contract logger conducts an operation under a signed, written contract with a person  
11 the contract logger reasonably believes to be the legal owner of the produce, trees, timber or shrubs  
12 in the operation area;

13 (b) The contract identifies the operation area by a metes and bounds description or other suffi-  
14 cient legal description;

15 (c) Before the contract logger begins harvesting in the operation area, the person who engages  
16 the contract logger under the contract:

18 (B) Flags, stakes or otherwise clearly marks the boundaries of the operation area; and

19 (C) Provides the contract logger with a copy of the deed, contract or other instrument that the

21 produce, trees, timber or shrubs in the operation area;

30 (5) Subsection (4) of this section does not affect an action for double or treble damages against  
31 a contract logger for damages outside the operation area as described in subsection (4) of this sec-  
32 tion.

33 (6) If an action is brought under this section against a contract logger, and the contract logger  
34 was engaged to harvest the timber by a person who purported to own the timber or to have au-  
35 thority to harvest the timber, the person who engaged the contract logger must be joined in the  
36 action as a defendant unless jurisdiction over the person cannot be had. If a judgment is entered  
37 against the contract logger and against the person who engaged the contract logger, the contract  
38 logger shall not be required to pay any part of the judgment unless the plaintiff establishes that the  
39 judgment cannot be enforced against the person who engaged the contract logger. The plaintiff may  
40 enforce the judgment against the contract logger only if:

41 (a) The plaintiff makes a good faith effort for at least six months after the judgment becomes  
42 final and subject to execution to enforce the judgment against the person who engaged the contract  
43 logger; and

44 (b) The court determines, upon motion of the plaintiff, that all or part of the judgment cannot
