

Submitter: [REDACTED]
On Behalf Of: SB1549
Committee: Senate Committee On Labor and Business
Measure: SB1549

As a Registered Nurse in Oregon I can tell you many nurses are exhausted and barely financially getting by. I am supporting a family, working full time, living pay check to pay check and will be paying student loans until I die. There should never be a cap on our pay. Oregon will lose critical healthcare workers and we are already short as it is. Fair compensation must be offered to retain nurses and maintain our ability to provide care for our patients. Also consider the hazards we face daily. Please do not interfere our compensation for work.
