

Submitter: Kristin Edmark

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB4115

Please pass HB4115. My daughter-in-law's family lost a beloved home in the 2020 Oregon fires. My son and his wife are OPERS members. Investment holdings should be easily available annually. HB4115 is common-sense; transparency is critically important. Oregon Treasury has written that they want Oregon Legislature behind them before looking at fossil fuel investments. HB4115 is consistent with Oregon legislation and state goals.
