

Submitter: Robin Crumrine
On Behalf Of:
Committee: House Committee On Revenue
Measure: HB4115

Dear Representatives,

As a member of PERS and as a citizen in Oregon, I fully support the transparency of all public investments and how our money is used. We do not currently know if the investments made are contributing to climate change and as we all are well-aware, climate change affects all of us. As a business owner in the lodging industry, we rely on tourists who will travel to our region. As a PERS member I care about my retirement savings and whether it is being invested responsibly. We need to lead the nation in the fight against climate change and this bill is a first step in shining a light on the holdings of the Oregon Treasury, which manages \$130 billion of our money.

Please pass HB4115 and do what is right for Oregon.

Thank you,

Robin Hawley Crumrine
