

Submitter: Katherine Hails

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB4115

Climate change is creating challenges for Oregonians in ways we are only just beginning to see. We know that money is a large part of the problem, with organizations failing to take action to divest from the fossil fuel companies that we know are a primary driver of the current crisis. I want my state to lead the way for others in allowing our citizens to understand how our state's money is contributing to the crisis both nationally and locally. The treasury's holdings are public information and must be treated as such--Oregonians need a tool to ensure our state is investing in ways that match our state's needs and values. We must pass HB4115.

Thank you,

Kate Hails
